Manufacturer Disclosure Statement for Medical Device Security -- MDS2

FUJIFILM SonoSite, Inc M-Turbo D13903 October, 2019

Question ID	Question		See note
DOC-1	Manufacturer Name	FUJIFILM SonoSite, Inc.	_
DOC-2	Device Description	Ultrasound	_
DOC-3	Device Model	M-Turbo	_
DOC-4	Document ID	D13903	_
		FUJIFILM SonoSite Technical	
		Support	
		Phone: 877-657-8118	
		Email: ffss-	
DOC-5	Manufacturer Contact Information	service@fujifilm.com	_
		DICOM based	
		communications including	
		but not limited to:	
		Ultrasound Image Storage,	
		Modality Worklist, Print,	
	Intended use of device in network-connected	Storage Commitment,	
DOC-6	environment:	Modality Performed Procedure Step	
DOC-7	Document Release Date	October, 2019	_
5007	Coordinated Vulnerability Disclosure: Does the	Yes,	_
	manufacturer have a vulnerability disclosure program	•	
DOC-8	for this device?	upport/security	
		., . ,	_
	ISAO: Is the manufacturer part of an Information		
DOC-9	Sharing and Analysis Organization?	Yes	
	Diagram: Is a network or data flow diagram available		
	that indicates connections to other system		
DOC-10	components or expected external resources?	Yes	
00044	SaMD: Is the device Software as a Medical Device (i.e.		
DOC-11 DOC-11.1	software-only, no hardware)? Does the SaMD contain an operating system?	No NA	_
DOC-11.1	Does the SaMD rely on an owner/operator provided	IVA	_
DOC-11.2	operating system?	NA	
DOC-11.2	Is the SaMD hosted by the manufacturer?	IVA	_
DOC-11.3	is the same nested by the management	NA	
DOC-11.4	Is the SaMD hosted by the customer?	NA	
200 11.	is the same hosted by the sastomen		_
		Yes, No,	
		N/A, or	
		See Note	Note #
	MANAGEMENT OF PERSONALLY IDENTIFIABLE		
	INFORMATION		
			Along with ultracound incomes and alice the day
	Can this device display, transmit, store, or modify		Along with ultrasound images and clips, the device has the ability to store and transmit the following
	personally identifiable information (e.g. electronic	Yes	ePHI items: Full Patient Name, DOB, Gender, Patient
MPII-1	Protected Health Information (e.g. electronic	163	ID, Accession Number and Indications.
	Does the device maintain personally identifiable		15, Accession Number and indications.
MPII-2	information?	Yes	
	Does the device maintain personally identifiable		
	information temporarily in volatile memory (i.e., until		
MPII-2.1	cleared by power-off or reset)?	Yes	_
14DU 2 2	Does the device store personally identifiable	V	
MPII-2.2	information persistently on internal media?	Yes	_
	Is personally identifiable information processed in the		
MPII-2.3	Is personally identifiable information preserved in the device's non-volatile memory until explicitly erased?	Yes	
11 2.3	Does the device store personally identifiable		_
MPII-2.4	information in a database?	Yes	
			_

	Does the device allow configuration to automatically		
	Does the device allow configuration to automatically		
	delete local personally identifiable information after		
MPII-2.5	it is stored to a long term solution?	No	
	Does the device import/export personally identifiable		
	information with other systems (e.g., a wearable		
	monitoring device might export personally		
MPII-2.6	identifiable information to a server)?	Yes	
	Does the device maintain personally identifiable		
	information when powered off, or during power		
MPII-2.7	service interruptions?	Yes	
IVIPII-2.7	•	res	_
	Does the device allow the internal media to be		
	removed by a service technician (e.g., for separate		
MPII-2.8	destruction or customer retention)?	Yes	_
	Does the device allow personally identifiable		
	information records be stored in a separate location		
	from the device's operating system (i.e. secondary		
	internal drive, alternate drive partition, or remote		
MPII-2.9	storage location)?	No	
	Does the device have mechanisms used for the		
	transmitting, importing/exporting of personally		
MPII-3	identifiable information?	Yes	
IVII II S	Does the device display personally identifiable	1.63	_
MDII 2.1		Voc	
MPII-3.1	information (e.g., video display, etc.)?	Yes	_
	Does the device generate hardcopy reports or images		
MPII-3.2	containing personally identifiable information?	Yes	
	Does the device retrieve personally identifiable		
	information from or record personally identifiable		
	information to removable media (e.g., removable-		
	HDD, USB memory, DVD-R/RW,CD-R/RW, tape, CF/SD		
MPII-3.3	card, memory stick, etc.)?	Yes	_
	Does the device transmit/receive or import/export		
	personally identifiable information via dedicated		
	cable connection (e.g., RS-232, RS-423, USB, FireWire,		
MDII 2 4	· -	No	
MPII-3.4	etc.)?	No	_
MPII-3.4	etc.)? Does the device transmit/receive personally	No	_
	etc.)? Does the device transmit/receive personally identifiable information via a wired network		_
MPII-3.4	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)?	No Yes	_ _
	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally		_ _
	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network		_
	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally		_ _
	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network		
MPII-3.5	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared,	Yes	
MPII-3.5	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)?	Yes	
MPII-3.5	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally	Yes	
MPII-3.5 MPII-3.6	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)?	Yes	
MPII-3.5 MPII-3.6 MPII-3.7	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)? Does the device import personally identifiable	Yes Yes No	
MPII-3.5 MPII-3.6	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)?	Yes	
MPII-3.5 MPII-3.6 MPII-3.7	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)? Does the device import personally identifiable information via scanning a document?	Yes Yes No	
MPII-3.5 MPII-3.6 MPII-3.7 MPII-3.8	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)? Does the device import personally identifiable information via scanning a document? Does the device transmit/receive personally	Yes Yes No Yes	
MPII-3.5 MPII-3.6 MPII-3.7	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)? Does the device import personally identifiable information via scanning a document? Does the device transmit/receive personally identifiable information via a proprietary protocol?	Yes Yes No	
MPII-3.5 MPII-3.6 MPII-3.7 MPII-3.8	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)? Does the device import personally identifiable information via scanning a document? Does the device transmit/receive personally identifiable information via a proprietary protocol? Does the device use any other mechanism to	Yes Yes No Yes	
MPII-3.5 MPII-3.6 MPII-3.7 MPII-3.8 MPII-3.9	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)? Does the device import personally identifiable information via scanning a document? Does the device transmit/receive personally identifiable information via a proprietary protocol? Does the device use any other mechanism to transmit, import or export personally identifiable	Yes Yes No Yes	
MPII-3.5 MPII-3.6 MPII-3.7 MPII-3.8	etc.)? Does the device transmit/receive personally identifiable information via a wired network connection (e.g., RJ45, fiber optic, etc.)? Does the device transmit/receive personally identifiable information via a wireless network connection (e.g., WiFi, Bluetooth, NFC, infrared, cellular, etc.)? Does the device transmit/receive personally identifiable information over an external network (e.g., Internet)? Does the device import personally identifiable information via scanning a document? Does the device transmit/receive personally identifiable information via a proprietary protocol? Does the device use any other mechanism to transmit, import or export personally identifiable information?	Yes Yes No Yes	

AUTOMATIC LOGOFF (ALOF)

The device's ability to prevent access and misuse by unauthorized users if device is left idle for a period of time.

	Can the device be configured to force reauthorization		Inactivity timer to enter sleep mode configurable to
	of logged-in user(s) after a predetermined length of		off, 5 minutes or 10 minutes. 2) Inactivity timer to
	inactivity (e.g., auto-logoff, session lock, password		power down configurable to off, 15 minutes or 30
ALOF-1	protected screen saver)?	Yes	minutes.
			Inactivity timer to enter sleep mode configurable to
			off, 5 minutes or 10 minutes. 2) Inactivity timer to
	Is the length of inactivity time before auto-		power down configurable to off, 15 minutes or 30
ALOF-2	logoff/screen lock user or administrator configurable?	Yes	minutes.

AUDIT CONTROLS (AUDT)

The ability to reliably audit activity on the device.

	, , ,	
	Can the medical device create additional audit logs or	
AUDT-1	reports beyond standard operating system logs?	Yes
AUDT-1.1	Does the audit log record a USER ID?	Yes
AODI 1.1	Does other personally identifiable information exist in	_
AUDT-1.2	the audit trail?	No
AUD1-1.2	Are events recorded in an audit log? If yes, indicate	NO .
	which of the following events are recorded in the	
AUDT-2	audit log:	Yes
AUDT-2.1	Successful login/logout attempts?	Yes
AUDT-2.1 AUDT-2.2	Unsuccessful login/logout attempts?	Yes
AUDT-2.3	Modification of user privileges?	Yes
AUDT-2.4	Creation/modification/deletion of users?	Yes
AUD1-2.4	creation/modification/defetion of users?	<u></u>
AUDT-2.5	Presentation of clinical or PII data (e.g. display, print)?	No
AUDT-2.6	Creation/modification/deletion of data?	No
A0D1-2.0	Import/export of data from removable media (e.g.	_
AUDT-2.7	USB drive, external hard drive, DVD)?	No
AUD1-2.7	Receipt/transmission of data or commands over a	_
AUDT-2.8	network or point-to-point connection?	No
AUDT-2.8.1	Remote or on-site support?	NA
AUD1-2.0.1	Application Programming Interface (API) and similar	_
AUDT-2.8.2	activity?	NA
AUDT-2.8.2 AUDT-2.9	Emergency access?	NA
AUDT-2.10	Other events (e.g., software updates)?	No —
A0D1-2.10	other events (e.g., software updates):	
AUDT-2.11	Is the audit capability documented in more detail?	Yes
	Can the owner/operator define or select which events	-
AUDT-3	are recorded in the audit log?	No
	Is a list of data attributes that are captured in the	
AUDT-4	audit log for an event available?	Yes
AUDT-4.1	Does the audit log record date/time?	Yes
		-
	Can date and time be synchronized by Network Time	
AUDT-4.1.1	Protocol (NTP) or equivalent time source?	Yes
AUDT-5	Can audit log content be exported?	Yes
AUDT-5.1	Via physical media?	Yes
	Via IHE Audit Trail and Node Authentication (ATNA)	
AUDT-5.2	profile to SIEM?	No
	Via Other communications (e.g., external service	
AUDT-5.3	device, mobile applications)?	No
	Are audit logs encrypted in transit or on storage	
AUDT-5.4	media?	Yes Audit logs are encrypted on the device storage
	Can audit logs be monitored/reviewed by	
AUDT-6	owner/operator?	Yes
AUDT-7	Are audit logs protected from modification?	Yes
AUDT-7.1	Are audit logs protected from access?	Yes
AUDT-8	Can audit logs be analyzed by the device?	Yes

AUTHORIZATION (AUTH)

The ability of the device to determine the authorization of users.	
Does the device prevent access to unauthorized user	S
through user login requirements or other	
mechanism?	Yes
Can the device be configured to use federated	
credentials management of users for authorization	
(e.g., LDAP, OAuth)?	No
Can the customer push group policies to the device	_
(e.g., Active Directory)?	No
Are any special groups, organizational units, or group	_
policies required?	No
Can users be assigned different privilege levels based	<u> </u>
on 'role' (e.g., user, administrator, and/or service,	
etc.)?	Yes
•	_
Can the device owner/operator grant themselves	

No

NA

Yes

CYBER SECURITY PRODUCT UPGRADES (CSUP)

unrestricted administrative privileges (e.g., access operating system or application via local root or

Does the device authorize or control all API access

Does the device run in a restricted access mode, or

administrator account)?

'kiosk mode', by default?

requests?

AUTH-1

AUTH-1.1 AUTH-1.2

AUTH-1.3

AUTH-2

AUTH-3

AUTH-4

AUTH-5

The ability of on-site service staff, remote service staff, or authorized customer staff to install/upgrade device's security patches.

	device 3 security pateries.	
	Does the device contain any software or firmware	
	which may require security updates during its	
	operational life, either from the device manufacturer	
	or from a third-party manufacturer of the	
	software/firmware? If no, answer "N/A" to questions	
CSUP-1	in this section.	Yes
	Does the device contain an Operating System? If yes,	
CSUP-2	complete 2.1-2.4.	Yes
	Does the device documentation provide instructions	
	for owner/operator installation of patches or	
CSUP-2.1	software updates?	١
	·	
	Does the device require vendor or vendor-authorized	
CSUP-2.2	service to install patches or software updates?	
	, , , , , , , , , , , , , , , , , , , ,	
	Does the device have the capability to receive remote	
CSUP-2.3	installation of patches or software updates?	
	Does the medical device manufacturer allow security	
	updates from any third-party manufacturers (e.g.,	
	Microsoft) to be installed without approval from the	
CSUP-2.4	manufacturer?	
	Does the device contain Drivers and Firmware? If yes,	
CSUP-3	complete 3.1-3.4.	,
	Does the device documentation provide instructions	
	for owner/operator installation of patches or	
CSUP-3.1	software updates?	١
	Does the device require vendor or vendor-authorized	
CSUP-3.2	service to install patches or software updates?	ı
	, , , , , , , , , , , , , , , , , , ,	
	Does the device have the capability to receive remote	
CSUP-3.3	installation of patches or software updates?	1
	p	

	Does the medical device manufacturer allow security	
	updates from any third-party manufacturers (e.g.,	
	Microsoft) to be installed without approval from the	
CSUP-3.4	manufacturer?	No
	Does the device contain Anti-Malware Software? If	
CSUP-4	yes, complete 4.1-4.4.	No
	Does the device documentation provide instructions	
	for owner/operator installation of patches or	
CSUP-4.1	software updates?	NA
	Does the device require vendor or vendor-authorized	
CSUP-4.2	service to install patches or software updates?	NA
	Does the device have the capability to receive remote	
CSUP-4.3	installation of patches or software updates?	NA
	Does the medical device manufacturer allow security	
	updates from any third-party manufacturers (e.g.,	
	Microsoft) to be installed without approval from the	
CSUP-4.4	manufacturer?	NA
5501 T.T	Does the device contain Non-Operating System	110
	commercial off-the-shelf components? If yes,	
CSUP-5	complete 5.1-5.4.	No
5501 5	Does the device documentation provide instructions	
	for owner/operator installation of patches or	
CSLID_E 1	software updates?	NA
CSUP-5.1	sortware upuates:	IVA
	Does the device require vander or yander authorized	
CSLID E 2	Does the device require vendor or vendor-authorized service to install patches or software updates?	NA
CSUP-5.2	service to instail patches of software updates?	IVA
	Doos the device have the canability to receive	
CSLID E 2	Does the device have the capability to receive remote	
CSUP-5.3	installation of patches or software updates?	NA
	Does the medical device manufacturer allow security	
	updates from any third-party manufacturers (e.g.,	
ccup = :	Microsoft) to be installed without approval from the	
CSUP-5.4	manufacturer?	NA
	Does the device contain ather settings come	
	Does the device contain other software components	
	(e.g., asset management software, license	
CSLID 6	management)? If yes, please provide details or	NIS
CSUP-6	refernce in notes and complete 6.1-6.4.	No
	Does the device documentation provide instructions	
CCLID C C	for owner/operator installation of patches or	
CSUP-6.1	software updates?	NA
	Does the device require vendor or vendor-authorized	
CSUP-6.2	service to install patches or software updates?	NA
	Does the device have the capability to receive remote	
CSUP-6.3	installation of patches or software updates?	NA
	Does the medical device manufacturer allow security	
	updates from any third-party manufacturers (e.g.,	
	Microsoft) to be installed without approval from the	
CSUP-6.4	manufacturer?	NA
	Does the manufacturer notify the customer when	
CSUP-7	updates are approved for installation?	Yes
	Does the device perform automatic installation of	
CSUP-8	software updates?	No
	Does the manufacturer have an approved list of third-	-
CSUP-9	party software that can be installed on the device?	NA
	Can the owner/operator install manufacturer-	
	approved third-party software on the device	
CSUP-10	themselves?	Yes
C301 IU	Does the system have mechanism in place to prevent	
CSUP-10.1	installation of unapproved software?	Yes
C301-10.1	installation of unapproved software:	162

CSUP-11	Does the manufacturer have a process in place to assess device vulnerabilities and updates?	Yes
CSUP-11.1	Does the manufacturer provide customers with review and approval status of updates?	Yes
CSUP-11.2	Is there an update review cycle for the device?	Yes

HEALTH DATA DE-IDENTIFICATION (DIDT)

The ability of the device to directly remove information that allows identification of a person.

DIDT-1	Does the device provide an integral capability to de- identify personally identifiable information? Does the device support de-identification profiles that comply with the DICOM standard for de-	Yes	The device can be configured to mask PHI on the display screen. The device has a feature to anonymize patient data prior to USB export.
DIDT-1.1	identification?	Yes	
	DATA BACKUP AND DISASTER RECOVERY (DTBK) The ability to recover after damage or destruction of device data, hardware, software, or site configuration information.		
	Does the device maintain long term primary storage of personally identifiable information / patient		
DTBK-1	information (e.g. PACS)? Does the device have a "factory reset" function to restore the original device settings as provided by the	No	_

DTBK-2 manufacturer? Yes Does the device have an integral data backup DTBK-3 capability to removable media? No Does the device have an integral data backup DTBK-4 capability to remote storage? NA

Does the device have a backup capability for system configuration information, patch restoration, and DTBK-5 software restoration? No Does the device provide the capability to check the DTBK-6 integrity and authenticity of a backup? NA

EMERGENCY ACCESS (EMRG)

EMRG-1

IGAU-1

The ability of the device user to access personally identifiable information in case of a medical emergency situation that requires immediate access to stored personally identifiable information. Does the device incorporate an emergency access (i.e. "break-glass") feature?

How the device ensures that the stored data on the device has not been altered or destroyed in a nonauthorized manner and is from the originator. Does the device provide data integrity checking mechanisms of stored health data (e.g., hash or digital signature)?

HEALTH DATA INTEGRIT	Y AND AUTHEN	TICITY
(IGAU)		

Page 6 of 13

IGAU-2	Does the device provide error/failure protection and recovery mechanisms for stored health data (e.g., RAID-5)?	No	_
	MALWARE DETECTION/PROTECTION (MLDP)		
	The ability of the device to effectively prevent, detect and remove malicious software (malware).		
MLDP-1	Is the device capable of hosting executable software?	No	_
			FUJIFILM SonoSite ultrasound systems feature whitelist software, which prevents third-party software from being installed and/or executed on the product. No third
	Does the device support the use of anti-malware		party software can be installed and/or executed on
	software (or other anti-malware mechanism)?		FUJIFILM SonoSite
MLDP-2	Provide details or reference in notes.	No	ultrasound systems.
MLDP-2.1	Does the device include anti-malware software by default?	No	
	Does the device have anti-malware software available	110	_
MLDP-2.2	as an option?	NA	
	Does the device documentation allow the		
MLDP-2.3	owner/operator to install or update anti-malware software?	NA	
IVILUP-2.5	Can the device owner/operator independently (re-	IVA	
MLDP-2.4)configure anti-malware settings?	NA	_
	Does notification of malware detection occur in the		
MLDP-2.5	device user interface?	NA	
	Can only manufacturer-authorized persons repair		
MLDP-2.6	systems when malware has been detected?	NA	
MLDP-2.7	Are malware notifications written to a log?	NA	
	Are there any restrictions on anti-malware (e.g.,		
MLDP-2.8	purchase, installation, configuration, scheduling)?	NA	
	If the answer to MLDP-2 is NO, and anti-malware		
	cannot be installed on the device, are other		
MLDP-3	compensating controls in place or available?	Yes	_
	Does the device employ application whitelisting that		
	restricts the software and services that are permitted		
MLDP-4	to be run on the device?	Yes	_
	Does the device employ a host-based intrusion		
MLDP-5	detection/prevention system?	No	_
	Can the host-based intrusion detection/prevention		
MLDP-5.1	system be configured by the customer?	NA	_
	Can a host-based intrusion detection/prevention		
MLDP-5.2	system be installed by the customer?	NA	_
	NODE AUTHENTICATION (NAUT)		
	The ability of the device to authenticate		
	communication partners/nodes.		
	December desire servida!		
	Does the device provide/support any means of node authentication that assures both the sender and the		
	recipient of data are known to each other and are		When optionally configured for DICOM based

Yes

communications, the modality (sender) and the

recipient must be identified

authorized to receive transferred information (e.g.

Web APIs, SMTP, SNMP)?

NAUT-1

	Ave noticeally access control massbanisms commented		
	Are network access control mechanisms supported		
NIALIT 2	(E.g., does the device have an internal firewall, or use	Voc	Connections limited to any defined DICOM source
NAUT-2	a network connection white list)?	Yes	Connections limited to pre defined DICOM server.
	Is the firewall ruleset documented and available for		
NAUT-2.1	review?	NA	_
	Does the device use certificate-based network		
NAUT-3	connection authentication?	No	_
	CONNECTIVITY CAPABILITIES (CONN)		
	All network and removable media connections must		
	be considered in determining appropriate security		
	controls. This section lists connectivity capabilities		
	that may be present on the device.		
	Does the device have hardware connectivity		
CONN-1	capabilities?	Yes	_
CONN-1.1	Does the device support wireless connections?	Yes	_
CONN-1.1.1	Does the device support Wi-Fi?	Yes	_
CONN-1.1.2	Does the device support Bluetooth?	No	_
	••		
	Does the device support other wireless network		
CONN-1.1.3	connectivity (e.g. LTE, Zigbee, proprietary)?	No	_
	Does the device support other wireless connections		
CONN-1.1.4	(e.g., custom RF controls, wireless detectors)?	No	
CONN-1.2	Does the device support physical connections?	Yes	_
	, , , , , , , , , , , , , , , , , , ,		
CONN-1.2.1	Does the device have available RJ45 Ethernet ports?	Yes	
CONN-1.2.2	Does the device have available USB ports?	Yes	_
	Does the device require, use, or support removable		_
CONN-1.2.3	memory devices?	Yes	
	,		_
CONN-1.2.4	Does the device support other physical connectivity?	No	
	Does the manufacturer provide a list of network ports		
	and protocols that are used or may be used on the		
CONN-2	device?	Yes	
	Can the device communicate with other systems		_
CONN-3	within the customer environment?	Yes	
	Can the device communicate with other systems		_
	external to the customer environment (e.g., a service		
CONN-4	host)?	No	
CONN-5	Does the device make or receive API calls?	Yes	_
	Does the device require an internet connection for its		_
