Manufacturer Disclosure Statement for Medical Device Security -- MDS2

FUJIFILM SonoSite, M-Turbo D13903 July, 2021

Inc.

| QUESTION ID | QUESTION | | NOTES |
|-------------|--|-----------------------------|---|
| DOC-1 | Manufacturer Name | FUJIFILM SonoSite, Inc. | |
| DOC-2 | Device Description | Ultrasound | |
| DOC-3 | Device Model | M-Turbo | |
| DOC-4 | Document ID | D13903 | |
| | Manufacturer Contact Information | FUJIFILM SonoSite Technical | |
| | | Support | |
| | | Phone: 877-657-8118 | |
| | | Email: ffss- | |
| DOC-5 | | service@fujifilm.com | |
| | Intended use of device in network-connected | DICOM based | |
| | environment: | communications including | |
| | | but not limited to: | |
| | | Ultrasound Image Storage, | |
| | | Modality Worklist, Print, | |
| | | Storage Commitment, | |
| | | Modality Performed | |
| | | Procedure Step | |
| DOC-6 | | | |
| DOC-7 | Document Release Date | July, 2021 | |
| | Coordinated Vulnerability Disclosure: Does the | Yes | https://www.sonosite.com/support/security |
| | manufacturer have a vulnerability disclosure | | |
| DOC-8 | program for this device? | | |
| | ISAO: Is the manufacturer part of an Information | Yes | |
| | Sharing and Analysis Organization? | | |
| DOC-9 | | | |
| | Diagram: Is a network or data flow diagram available | Yes | |
| | that indicates connections to other system | | |
| | components or expected external resources? | | |
| DOC-10 | | | |
| | SaMD: Is the device Software as a Medical Device | No | |
| DOC-11 | (i.e. software-only, no hardware)? | | |
| DOC-11.1 | Does the SaMD contain an operating system? | NA | |
| | Does the SaMD rely on an owner/operator provided | NA | |
| DOC-11.2 | operating system? | | |
| | Is the SaMD hosted by the manufacturer? | NA | |
| DOC-11.3 | | | |
| DOC-11.4 | Is the SaMD hosted by the customer? | NA | |
| | is the same hosted by the customer; | | |

| | MANAGEMENT OF PERSONALLY IDENTIFIABLE | | NOTES |
|----------|--|-----|---|
| | INFORMATION | | |
| | Can this device display, transmit, store, or modify | Yes | Along with ultrasound images and clips, the device |
| | personally identifiable information (e.g. electronic | | has the ability to store and transmit the following |
| | Protected Health Information (ePHI))? | | ePHI items: Full Patient Name, DOB, Gender, |
| | | | Patient ID, Accession Number and Indications. |
| MPII-1 | | | |
| | Does the device maintain personally identifiable | Yes | |
| MPII-2 | information? | | |
| | Does the device maintain personally identifiable | Yes | _ |
| | information temporarily in volatile memory (i.e., | | |
| | until cleared by power-off or reset)? | | |
| MPII-2.1 | | | |
| | Does the device store personally identifiable | Yes | _ |
| MPII-2.2 | information persistently on internal media? | | |
| | Is personally identifiable information preserved in | Yes | _ |
| | the device's non-volatile memory until explicitly | | |
| MPII-2.3 | erased? | | |
| | Does the device store personally identifiable | Yes | _ |
| MPII-2.4 | information in a database? | | |
| | Does the device allow configuration to automatically | No | _ |
| | delete local personally identifiable information after | | |
| | it is stored to a long term solution? | | |
| MPII-2.5 | | | |

| | Does the device import/export personally | Voc | |
|-------------|---|-----|---|
| | Does the device import/export personally identifiable information with other systems (e.g., a | Yes | _ |
| | , , , | | |
| | wearable monitoring device might export personally | | |
| | identifiable information to a server)? | | |
| MPII-2.6 | | | |
| | Does the device maintain personally identifiable | Yes | |
| | information when powered off, or during power | | |
| MPII-2.7 | service interruptions? | | |
| | Does the device allow the internal media to be | Yes | |
| | removed by a service technician (e.g., for separate | | |
| MPII-2.8 | destruction or customer retention)? | | |
| | Does the device allow personally identifiable | No | |
| | information records be stored in a separate location | | |
| | from the device's operating system (i.e. secondary | | |
| | internal drive, alternate drive partition, or remote | | |
| MPII-2.9 | storage location)? | | |
| | Does the device have mechanisms used for the | Yes | |
| | transmitting, importing/exporting of personally | | |
| MPII-3 | identifiable information? | | |
| | Does the device display personally identifiable | Yes | |
| MPII-3.1 | information (e.g., video display, etc.)? | | |
| | Does the device generate hardcopy reports or | Yes | |
| | images containing personally identifiable | | _ |
| MPII-3.2 | information? | | |
| 1411 11 3.2 | Does the device retrieve personally identifiable | Yes | |
| | information from or record personally identifiable | | _ |
| | information to removable media (e.g., removable- | | |
| | HDD, USB memory, DVD-R/RW,CD-R/RW, tape, | | |
| | • | | |
| MPII-3.3 | CF/SD card, memory stick, etc.)? | | |
| IVIPII-3.3 | | No | |
| | | No | _ |
| | personally identifiable information via dedicated | | |
| | cable connection (e.g., RS-232, RS-423, USB, | | |
| MPII-3.4 | FireWire, etc.)? | | |
| | Does the device transmit/receive personally | Yes | _ |
| | identifiable information via a wired network | | |
| MPII-3.5 | connection (e.g., RJ45, fiber optic, etc.)? | | |
| | Does the device transmit/receive personally | Yes | |
| | identifiable information via a wireless network | | |
| | connection (e.g., WiFi, Bluetooth, NFC, infrared, | | |
| MPII-3.6 | cellular, etc.)? | | |
| | Does the device transmit/receive personally | No | _ |
| | identifiable information over an external network | | |
| MPII-3.7 | (e.g., Internet)? | | |
| | Does the device import personally identifiable | Yes | |
| MPII-3.8 | information via scanning a document? | | |
| | Does the device transmit/receive personally | No | |
| | identifiable information via a proprietary protocol? | | |
| MPII-3.9 | | | |
| | Does the device use any other mechanism to | No | |
| | transmit, import or export personally identifiable | | |
| MPII-3.10 | information? | | |
| | Private Data notes: | | |
| | | | I |
| | | | |
| <u> </u> | | | |
| | | | |

| | AUTOMATIC LOGOFF (ALOF) | | NOTES |
|--------|--|-----|--|
| | The device's ability to prevent access and misuse by | | |
| | unauthorized users if device is left idle for a period | | |
| | of time. | | |
| | Can the device be configured to force | Yes | Inactivity timer to enter sleep mode configurable |
| | reauthorization of logged-in user(s) after a | | to off, 5 minutes or 10 minutes. 2) Inactivity timer |
| | predetermined length of inactivity (e.g., auto-logoff, | | to power down configurable to off, 15 minutes or |
| | session lock, password protected screen saver)? | | 30 minutes. |
| ALOF-1 | | | |

| | Is the length of inactivity time before auto- | Yes | Inactivity timer to enter sleep mode configurable |
|--------|---|-----|--|
| | logoff/screen lock user or administrator | | to off, 5 minutes or 10 minutes. 2) Inactivity timer |
| | configurable? | | to power down configurable to off, 15 minutes or |
| ALOF-2 | | | 30 minutes. |

| AUDIT CONTROLS (AUDT) | | NOTES |
|---|--|---|
| The ability to reliably audit activity on the device. | | |
| | | |
| Can the medical device create additional audit logs | Yes | |
| or reports beyond standard operating system logs? | | |
| | | |
| · · | | |
| · · · · · · · · · · · · · · · · · · · | No | |
| | V | |
| | Yes | _ |
| <u> </u> | | |
| - | νος | |
| · | | |
| | | |
| · | | _ |
| Presentation of clinical or PII data (e.g. display, | No | |
| print)? | | |
| Creation/modification/deletion of data? | No | _ |
| Import/export of data from removable media (e.g. | No | |
| USB drive, external hard drive, DVD)? | | |
| Receipt/transmission of data or commands over a | No | |
| network or point-to-point connection? | | |
| Remote or on-site support? | NA | |
| 1 ' ' | NA | _ |
| · | | |
| <u> </u> | | |
| | | |
| is the audit capability documented in more detail? | Yes | _ |
| Can the owner/operator define or select which | No | |
| | NO | |
| | Yes | |
| · | | _ |
| | Yes | |
| Can date and time be synchronized by Network | Yes | |
| Time Protocol (NTP) or equivalent time source? | | |
| | | |
| Can audit log content be exported? | Yes | _ |
| Via physical media? | Yes | |
| ` ' | No | _ |
| | | |
| | No | - |
| | Voc | Audit language and an arrival and the desired |
| | res | Audit logs are encrypted on the device storage |
| | Voc | |
| | 163 | |
| | Yes | |
| Are audit logs protected from access? | Yes | |
| IAIE AUGILIUES DI OTELIEU ITOITI ALTERY | | |
| | The ability to reliably audit activity on the device. Can the medical device create additional audit logs or reports beyond standard operating system logs? Does the audit log record a USER ID? Does other personally identifiable information exist in the audit trail? Are events recorded in an audit log? If yes, indicate which of the following events are recorded in the audit log: Successful login/logout attempts? Unsuccessful login/logout attempts? Modification of user privileges? Creation/modification/deletion of users? Presentation of clinical or PII data (e.g. display, print)? Creation/modification/deletion of data? Import/export of data from removable media (e.g. USB drive, external hard drive, DVD)? Receipt/transmission of data or commands over a network or point-to-point connection? Remote or on-site support? Application Programming Interface (API) and similar activity? Emergency access? Other events (e.g., software updates)? Is the audit capability documented in more detail? Can the owner/operator define or select which events are recorded in the audit log? Is a list of data attributes that are captured in the audit log for an event available? Does the audit log record date/time? Can date and time be synchronized by Network Time Protocol (NTP) or equivalent time source? Via physical media? Via IHE Audit Trail and Node Authentication (ATNA) profile to SIEM? Via Other communications (e.g., external service device, mobile applications)? Are audit logs encrypted in transit or on storage media? Can audit logs be monitored/reviewed by owner/operator? Are audit logs protected from modification? | The ability to reliably audit activity on the device. Can the medical device create additional audit logs or reports beyond standard operating system logs? Does the audit log record a USER ID? Does other personally identifiable information exist in the audit trail? Are events recorded in an audit log? If yes, indicate which of the following events are recorded in the audit log: Successful login/logout attempts? Unsuccessful login/logout attempts? Unsuccessful login/logout attempts? Ves Modification of user privileges? Creation/modification/deletion of users? Presentation of clinical or PII data (e.g. display, print)? Creation/modification/deletion of data? Import/export of data from removable media (e.g. USB drive, external hard drive, DVD)? Receipt/transmission of data or commands over a network or point-to-point connection? Remote or on-site support? Application Programming Interface (API) and similar activity? Emergency access? Other events (e.g., software updates)? Is the audit capability documented in more detail? Ves Can the owner/operator define or select which events are recorded in the audit log? Is a list of data attributes that are captured in the audit log for an event available? Does the audit log content be exported? Ves Via IHE Audit Trail and Node Authentication (ATNA) profile to SIEM? Via Other communications (e.g., external service device, mobile applications)? Are audit logs encrypted in transit or on storage media? Can audit logs be monitored/reviewed by owner/operator? Are audit logs brotected from modification? Yes |

| | AUTHORIZATION (AUTH) | | NOTES |
|----------|---|-----|-------|
| | The ability of the device to determine the | | |
| | authorization of users. | | |
| | Does the device prevent access to unauthorized | Yes | |
| | users through user login requirements or other | | |
| AUTH-1 | mechanism? | | |
| | Can the device be configured to use federated | No | |
| | credentials management of users for authorization | | |
| AUTH-1.1 | (e.g., LDAP, OAuth)? | | |

| | Can the customer push group policies to the device | No | _ |
|----------|--|-----|---|
| AUTH-1.2 | (e.g., Active Directory)? | | |
| | Are any special groups, organizational units, or | No | |
| AUTH-1.3 | group policies required? | | |
| | Can users be assigned different privilege levels | Yes | Individual user accounts are required when the |
| | based on 'role' (e.g., user, administrator, and/or | | device is configured for Administrative mode. |
| | service, etc.)? | | Accounts can be created for device administrators |
| AUTH-2 | | | and general users |
| | Can the device owner/operator grant themselves | No | |
| | unrestricted administrative privileges (e.g., access | | |
| | operating system or application via local root or | | |
| | administrator account)? | | |
| AUTH-3 | | | |
| | Does the device authorize or control all API access | NA | _ |
| AUTH-4 | requests? | | |
| | Does the device run in a restricted access mode, or | Yes | |
| AUTH-5 | 'kiosk mode', by default? | | |

| | CYBER SECURITY PRODUCT UPGRADES (CSUP) | | NOTES |
|----------|--|-----|---|
| | The ability of on-site service staff, remote service | | |
| | staff, or authorized customer staff to | | |
| | install/upgrade device's security patches. | | |
| | Does the device contain any software or firmware | Yes | FUJIFILM SonoSite will provide system updates to |
| | which may require security updates during its | | deploy any applicable security patches. FUJIFILM |
| | operational life, either from the device | | SonoSite performs regular security scans on their |
| | manufacturer or from a third-party manufacturer of | | ultrasound systems. |
| | the software/firmware? If no, answer "N/A" to | | |
| CSUP-1 | guestions in this section. | | |
| | Does the device contain an Operating System? If | Yes | FUJIFILM SonoSite systems run on a closed |
| | yes, complete 2.1-2.4. | | proprietary operating system which includes |
| CSUP-2 | , 55, 55 | | components from WindRiver Linux (LTS 18). |
| | Does the device documentation provide instructions | Yes | (2 - 2 - 2) |
| | for owner/operator installation of patches or | | _ |
| CSUP-2.1 | software updates? | | |
| | Does the device require vendor or vendor- | No | |
| | authorized service to install patches or software | | _ |
| CSUP-2.2 | updates? | | |
| | Does the device have the capability to receive | No | There is no remote access to the device |
| | remote installation of patches or software updates? | | |
| CSUP-2.3 | The state of the s | | |
| | Does the medical device manufacturer allow | No | |
| | security updates from any third-party manufacturers | | |
| | (e.g., Microsoft) to be installed without approval | | |
| CSUP-2.4 | from the manufacturer? | | |
| | Does the device contain Drivers and Firmware? If | Yes | |
| CSUP-3 | yes, complete 3.1-3.4. | | |
| | Does the device documentation provide instructions | Yes | _ |
| | for owner/operator installation of patches or | | |
| CSUP-3.1 | software updates? | | |
| | Does the device require vendor or vendor- | No | _ |
| | authorized service to install patches or software | | |
| CSUP-3.2 | updates? | | |
| | Does the device have the capability to receive | No | _ |
| | remote installation of patches or software updates? | | |
| CSUP-3.3 | | | |
| | Does the medical device manufacturer allow | No | _ |
| | security updates from any third-party manufacturers | | |
| | (e.g., Microsoft) to be installed without approval | | |
| CSUP-3.4 | from the manufacturer? | | |
| | Does the device contain Anti-Malware Software? If | No | |
| CSUP-4 | yes, complete 4.1-4.4. | | |
| | Does the device documentation provide instructions | NA | |
| | for owner/operator installation of patches or | | |
| CSUP-4.1 | software updates? | | |

| | Does the device require vendor or vendor- | NA | |
|-----------|--|------|---|
| | authorized service to install patches or software | | |
| CSUP-4.2 | updates? | | |
| | Does the device have the capability to receive | NA | |
| | · | INA | |
| 00110 4 0 | remote installation of patches or software updates? | | |
| CSUP-4.3 | | | |
| | Does the medical device manufacturer allow | NA | |
| | security updates from any third-party manufacturers | | |
| | (e.g., Microsoft) to be installed without approval | | |
| CSUP-4.4 | from the manufacturer? | | |
| | | No | |
| | 1 0 / | 140 | |
| | commercial off-the-shelf components? If yes, | | |
| CSUP-5 | complete 5.1-5.4. | | |
| | Does the device documentation provide instructions | NA | _ |
| | for owner/operator installation of patches or | | |
| CSUP-5.1 | software updates? | | |
| | Does the device require vendor or vendor- | NA | |
| | authorized service to install patches or software | | _ |
| CSUP-5.2 | · | | |
| CSUP-5.2 | updates? | | |
| | Does the device have the capability to receive | NA | — |
| | remote installation of patches or software updates? | | |
| CSUP-5.3 | | | |
| | Does the medical device manufacturer allow | NA | |
| | security updates from any third-party manufacturers | | |
| | (e.g., Microsoft) to be installed without approval | | |
| CCLID E 4 | | | |
| CSUP-5.4 | from the manufacturer? | | |
| | Does the device contain other software components | No | _ |
| | (e.g., asset management software, license | | |
| | management)? If yes, please provide details or | | |
| | refernce in notes and complete 6.1-6.4. | | |
| CSUP-6 | , c.c | | |
| C301 0 | Does the device documentation provide instructions | NΙΔ | |
| | · | INA | — |
| | for owner/operator installation of patches or | | |
| CSUP-6.1 | software updates? | | |
| | Does the device require vendor or vendor- | NA | |
| | authorized service to install patches or software | | |
| CSUP-6.2 | updates? | | |
| | Does the device have the capability to receive | NA | |
| | remote installation of patches or software updates? | | _ |
| CCLID C 3 | remote installation of pateries of software updates: | | |
| CSUP-6.3 | | | |
| | Does the medical device manufacturer allow | NA | |
| | security updates from any third-party manufacturers | | |
| | (e.g., Microsoft) to be installed without approval | | |
| CSUP-6.4 | from the manufacturer? | | |
| | Does the manufacturer notify the customer when | Yes | |
| CSUP-7 | | . 55 | |
| CSUP-/ | updates are approved for installation? | N. | |
| | Does the device perform automatic installation of | No | — |
| CSUP-8 | software updates? | | |
| | Does the manufacturer have an approved list of | NA | |
| | third-party software that can be installed on the | | |
| CSUP-9 | device? | | |
| | Can the owner/operator install manufacturer- | Yes | |
| | · · · | 103 | _ |
| 00115 40 | approved third-party software on the device | | |
| CSUP-10 | themselves? | | |
| | Does the system have mechanism in place to | Yes | _ |
| CSUP-10.1 | prevent installation of unapproved software? | | |
| | Does the manufacturer have a process in place to | Yes | |
| CSUP-11 | assess device vulnerabilities and updates? | | |
| 5501 11 | | Voc | |
| CCUP 44 4 | Does the manufacturer provide customers with | Yes | _ |
| CSUP-11.1 | review and approval status of updates? | | |
| CSUP-11.2 | Is there an update review cycle for the device? | Yes | |
| | | | |
| | | | |

| HEALTH DATA DE-IDENTIFICATION (DIDT) | NOTES |
|---|-------|
| The ability of the device to directly remove | |
| information that allows identification of a person. | |

| | Does the device provide an integral capability to de- | Yes | The device can be configured to mask PHI on the |
|----------|---|-----|--|
| | identify personally identifiable information? | | display screen. |
| | | | The device has a feature to anonymize patient data |
| DIDT-1 | | | prior to USB export. |
| | Does the device support de-identification profiles | Yes | The device can be configured to mask PHI on the |
| | that comply with the DICOM standard for de- | | display screen. |
| | identification? | | The device has a feature to anonymize patient data |
| DIDT-1.1 | | | prior to USB export. |

| | DATA BACKUP AND DISASTER RECOVERY | | NOTES |
|--------|---|-----|-------|
| | (ДТВК) | | |
| | The ability to recover after damage or destruction of | | |
| | device data, hardware, software, or site | | |
| | configuration information. | | |
| | Does the device maintain long term primary storage | No | _ |
| | of personally identifiable information / patient | | |
| DTBK-1 | information (e.g. PACS)? | | |
| | Does the device have a "factory reset" function to | Yes | |
| | restore the original device settings as provided by | | |
| DTBK-2 | the manufacturer? | | |
| | Does the device have an integral data backup | No | |
| DTBK-3 | capability to removable media? | | |
| | Does the device have an integral data backup | NA | |
| DTBK-4 | capability to remote storage? | | |
| | Does the device have a backup capability for system | No | |
| | configuration information, patch restoration, and | | |
| DTBK-5 | software restoration? | | |
| | Does the device provide the capability to check the | NA | |
| | integrity and authenticity of a backup? | | |
| DTBK-6 | | | |

| | EMERGENCY ACCESS (EMRG) | | NOTES |
|--------|---|----|-------|
| | The ability of the device user to access personally identifiable information in case of a medical emergency situation that requires immediate access to stored personally identifiable information. | | |
| EMRG-1 | Does the device incorporate an emergency access (i.e. "break-glass") feature? | No | _ |

| | HEALTH DATA INTEGRITY AND AUTHENTICITY | | NOTES |
|--------|--|----|-------|
| | (IGAU) | | |
| | How the device ensures that the stored data on the | | |
| | device has not been altered or destroyed in a non- | | |
| | authorized manner and is from the originator. | | |
| | | | |
| | Does the device provide data integrity checking | No | _ |
| | mechanisms of stored health data (e.g., hash or | | |
| IGAU-1 | digital signature)? | | |
| | Does the device provide error/failure protection and | No | |
| | recovery mechanisms for stored health data (e.g., | | |
| IGAU-2 | RAID-5)? | | |

| | MALWARE DETECTION/PROTECTION (MLDP) | | NOTES |
|--------|---|----|---|
| | The ability of the device to effectively prevent, detect and remove malicious software (malware). | | |
| MLDP-1 | Is the device capable of hosting executable software? | No | _ |
| | Does the device support the use of anti-malware software (or other anti-malware mechanism)? Provide details or reference in notes. | No | FUJIFILM SonoSite ultrasound systems feature whitelist software, which prevents third-party software from being installed and/or executed on the product. No third party software can be installed and/or executed on FUJIFILM SonoSite |
| MLDP-2 | | | ultrasound systems. |

| | Does the device include anti-malware software by | No | |
|----------|--|-----|---|
| MLDP-2.1 | default? | | |
| | Does the device have anti-malware software | NA | |
| MLDP-2.2 | available as an option? | | |
| | Does the device documentation allow the | NA | |
| | owner/operator to install or update anti-malware | | |
| MLDP-2.3 | software? | | |
| | Can the device owner/operator independently (re- | NA | |
| MLDP-2.4 |)configure anti-malware settings? | | |
| | | NA | |
| MLDP-2.5 | device user interface? | | |
| | , | NA | |
| | systems when malware has been detected? | | |
| MLDP-2.6 | | | |
| MLDP-2.7 | Are malware notifications written to a log? | NA | |
| | Are there any restrictions on anti-malware (e.g., | NA | |
| | purchase, installation, configuration, scheduling)? | | |
| MLDP-2.8 | | | |
| | If the answer to MLDP-2 is NO, and anti-malware | Yes | _ |
| | cannot be installed on the device, are other | | |
| | compensating controls in place or available? | | |
| MLDP-3 | | | |
| | Does the device employ application whitelisting that | Yes | |
| | restricts the software and services that are | | |
| | permitted to be run on the device? | | |
| MLDP-4 | | | |
| | ' ' | No | _ |
| MLDP-5 | detection/prevention system? | | |
| | • 1 | NA | — |
| MIDD E 1 | system be configured by the customer? | | |
| MLDP-5.1 | Can a heat heard intervals a data time laws at the | NIA | |
| | Can a host-based intrusion detection/prevention | NA | _ |
| MIDDES | system be installed by the customer? | | |
| MLDP-5.2 | | | |

| | NODE AUTHENTICATION (NAUT) | | NOTES |
|----------|--|-----|--|
| | The ability of the device to authenticate | | |
| | communication partners/nodes. | | |
| | Does the device provide/support any means of node | Yes | When optionally configured for DICOM based |
| | authentication that assures both the sender and the | | communications, the modality (sender) and the |
| | recipient of data are known to each other and are | | recipient must be identified |
| | authorized to receive transferred information (e.g. | | |
| | Web APIs, SMTP, SNMP)? | | |
| NAUT-1 | | | |
| | Are network access control mechanisms supported | Yes | Connections limited to pre defined DICOM server. |
| | (E.g., does the device have an internal firewall, or | | |
| | use a network connection white list)? | | |
| NAUT-2 | | | |
| | Is the firewall ruleset documented and available for | NA | _ |
| NAUT-2.1 | review? | | |
| | Does the device use certificate-based network | No | |
| NAUT-3 | connection authentication? | | |

| | CONNECTIVITY CAPABILITIES (CONN) | | NOTES |
|------------|--|-----|-------|
| | All network and removable media connections must | | |
| | be considered in determining appropriate security | | |
| | controls. This section lists connectivity capabilities | | |
| | that may be present on the device. | | |
| | Does the device have hardware connectivity | Yes | |
| CONN-1 | capabilities? | | |
| CONN-1.1 | Does the device support wireless connections? | Yes | |
| CONN-1.1.1 | Does the device support Wi-Fi? | Yes | |
| CONN-1.1.2 | Does the device support Bluetooth? | No | |
| | Does the device support other wireless network | No | |
| | connectivity (e.g. LTE, Zigbee, proprietary)? | | |
| CONN-1.1.3 | | | |

| | Does the device support other wireless connections | No | _ |
|------------|---|-----|---|
| | (e.g., custom RF controls, wireless detectors)? | | |
| CONN-1.1.4 | | | |
| CONN-1.2 | Does the device support physical connections? | Yes | |
| | Does the device have available RJ45 Ethernet ports? | Yes | _ |
| CONN-1.2.1 | | | |
| CONN-1.2.2 | Does the device have available USB ports? | Yes | |
| | Does the device require, use, or support removable | Yes | |
| CONN-1.2.3 | memory devices? | | |
| | Does the device support other physical | No | |
| CONN-1.2.4 | connectivity? | | |
| | Does the manufacturer provide a list of network | Yes | |
| | ports and protocols that are used or may be used on | | |
| CONN-2 | the device? | | |
| | Can the device communicate with other systems | Yes | |
| CONN-3 | within the customer environment? | | |
| | Can the device communicate with other systems | No | _ |
| | external to the customer environment (e.g., a | | |
| CONN-4 | service host)? | | |
| CONN-5 | Does the device make or receive API calls? | Yes | _ |
| | Does the device require an internet connection for | No | |
| CONN-6 | its intended use? | | |
| | Does the device support Transport Layer Security | Yes | |
| CONN-7 | (TLS)? | | |
| CONN-7.1 | Is TLS configurable? | No | |
| | Does the device provide operator control | No | |
| | functionality from a separate device (e.g., | | |
| CONN-8 | telemedicine)? | | |

| | PERSON AUTHENTICATION (PAUT) | | NOTES | |
|----------|---|-----|-------|--|
| | The ability to configure the device to authenticate | | | |
| | users. | | | |
| | Does the device support and enforce unique IDs and | Yes | | |
| | passwords for all users and roles (including service | | | |
| PAUT-1 | accounts)? | | | |
| | Does the device enforce authentication of unique | Yes | | |
| | IDs and passwords for all users and roles (including | | | |
| PAUT-1.1 | service accounts)? | | | |
| | Is the device configurable to authenticate users | No | | |
| | through an external authentication service (e.g., MS | | | |
| | Active Directory, NDS, LDAP, OAuth, etc.)? | | | |
| PAUT-2 | | | | |
| | Is the device configurable to lock out a user after a | No | | |
| | certain number of unsuccessful logon attempts? | | | |
| PAUT-3 | | | | |
| | Are all default accounts (e.g., technician service | Yes | | |
| | accounts, administrator accounts) listed in the | | | |
| PAUT-4 | documentation? | | | |
| PAUT-5 | Can all passwords be changed? | Yes | | |
| | Is the device configurable to enforce creation of | No | | |
| | user account passwords that meet established | | | |
| | (organization specific) complexity rules? | | | |
| PAUT-6 | | | | |
| | Does the device support account passwords that | No | | |
| PAUT-7 | expire periodically? | | | |
| | Does the device support multi-factor | No | | |
| PAUT-8 | authentication? | | | |
| PAUT-9 | Does the device support single sign-on (SSO)? | No | | |
| | Can user accounts be disabled/locked on the | Yes | | |
| PAUT-10 | device? | | | |
| PAUT-11 | Does the device support biometric controls? | No | | |
| | Does the device support physical tokens (e.g. badge | No | | |
| PAUT-12 | access)? | | | |
| | Does the device support group authentication (e.g. | Yes | | |
| PAUT-13 | hospital teams)? | | | |
| | Does the application or device store or manage | Yes | _ | |
| PAUT-14 | authentication credentials? | | | |

| PAUT-14.1 | Are credentials stored using a secure method? | Yes | |
|--------------|--|-----|--|
| | | | |
| | PHYSICAL LOCKS (PLOK) | | NOTES |
| | Physical locks can prevent unauthorized users with physical access to the device from compromising | | |
| | the integrity and confidentiality of personally | | |
| | identifiable information stored on the device or on | | |
| | removable media | | |
| | Is the device software only? If yes, answer "N/A" to | No | |
| PLOK-1 | remaining questions in this section. | | |
| | Are all device components maintaining personally | Yes | |
| | identifiable information (other than removable | | |
| PLOK-2 | media) physically secure (i.e., cannot remove without tools)? | | |
| 1 201. 2 | Are all device components maintaining personally | Yes | |
| | identifiable information (other than removable | | |
| | media) physically secured behind an individually | | |
| PLOK-3 | keyed locking device? | | |
| | Does the device have an option for the customer to | NA | Media is none removable. |
| | attach a physical lock to restrict access to removable | | |
| PLOK-4 | media? | | |
| | ROADMAP FOR THIRD PARTY COMPONENTS IN | | NOTES |
| | DEVICE LIFE CYCLE (RDMP) | | INOTES |
| | DEVICE EILE CICEE (NOWI) | | |
| | Manufacturer's plans for security support of third- | | |
| | party components within the device's life cycle. | | |
| | | | |
| | Was a secure software development process, such | Yes | |
| | as ISO/IEC 27034 or IEC 62304, followed during | | |
| RDMP-1 | product development? | Vac | |
| | Does the manufacturer evaluate third-party applications and software components included in | Yes | _ |
| | the device for secure development practices? | | |
| RDMP-2 | the device for secure development practices. | | |
| | Does the manufacturer maintain a web page or | Yes | _ |
| | other source of information on software support | | |
| RDMP-3 | dates and updates? | | |
| | Does the manufacturer have a plan for managing | Yes | https://www.sonosite.com/support/sonosite- |
| RDMP-4 | third-party component end-of-life? | | product-retirement-schedule |
| | SOFTWARE BILL OF MATERIALS (SBoM) | | NOTES |
| | A Software Bill of Material (SBoM) lists all the | | NOTES |
| | software components that are incorporated into the | | |
| | device being described for the purpose of | | |
| | operational security planning by the healthcare | | |
| | delivery organization. This section supports controls | | |
| | in the RDMP section. | | |
| SBOM-1 | Is the SBoM for this product available? | Yes | |
| SBOM-2 | Does the SBoM follow a standard or common | Yes | _ |
| SBOM-2.1 | method in describing software components? Are the software components identified? | Yes | |
| 220,111 2.11 | Are the developers/manufacturers of the software | Yes | |
| SBOM-2.2 | components identified? | | |
| | Are the major version numbers of the software | Yes | _ |
| SBOM-2.3 | components identified? | | |
| SDOM S | Are any additional descriptive elements identified? | Yes | |
| SBOM-2.4 | Doos the device include a comment of a comment | Voc | |
| | Does the device include a command or process method available to generate a list of software | Yes | _ |
| SBOM-3 | components installed on the device? | | |
| SBOM-4 | Is there an update process for the SBoM? | Yes | |
| | | | 1 |
| | SYSTEM AND APPLICATION HARDENING | | NOTES |
| | (SAHD) | | |
| | | | |

| | The device's inherent resistance to cyber attacks | | |
|--------------|--|-----|--|
| | and malware. | V | |
| SAHD-1 | Is the device hardened in accordance with any industry standards? | Yes | _ |
| | Has the device received any cybersecurity | Yes | This device has been tested by 3rd Party Cyber |
| SAHD-2 | certifications? Does the device employ any mechanisms for | Yes | Security tested organization System and Integerity checking is performed during |
| SAHD-3 | software integrity checking | 163 | boot up |
| | Does the device employ any mechanism (e.g., | Yes | System and Integerity checking is performed during |
| | release-specific hash key, checksums, digital signature, etc.) to ensure the installed software is | | boot up |
| SAHD-3.1 | manufacturer-authorized? | | |
| | Does the device employ any mechanism (e.g., | Yes | System and Integerity checking is performed during |
| | release-specific hash key, checksums, digital signature, etc.) to ensure the software updates are | | boot up |
| SAHD-3.2 | the manufacturer-authorized updates? | | |
| | , , , | No | |
| | checks (i.e., verify that the system has not been modified or tampered with)? | | |
| SAHD-4 | mounica of tamperea withy. | | |
| | Is the system configurable to allow the | Yes | _ |
| SAHD-5 | implementation of file-level, patient level, or other types of access controls? | | |
| 3, 11, 12, 3 | Does the device provide role-based access controls? | Yes | _ |
| SAHD-5.1 | | | |
| | Are any system or user accounts restricted or disabled by the manufacturer at system delivery? | Yes | <u> </u> |
| SAHD-6 | disabled by the manufacturer at system delivery: | | |
| | Are any system or user accounts configurable by the | Yes | _ |
| SAHD-6.1 | end user after initial configuration? Does this include restricting certain system or user | Yes | |
| | accounts, such as service technicians, to least | 163 | |
| SAHD-6.2 | privileged access? | | |
| | Are all shared resources (e.g., file shares) which are not required for the intended use of the device | Yes | <u> </u> |
| SAHD-7 | disabled? | | |
| | Are all communication ports and protocols that are | Yes | All ports and services not needed for the device to |
| SAHD-8 | not required for the intended use of the device disabled? | | operate as intended have been disabled or removed |
| 57.11.12 0 | Are all services (e.g., telnet, file transfer protocol | Yes | All ports and services not needed for the device to |
| | [FTP], internet information server [IIS], etc.), which | | operate as intended have been disabled or |
| SAHD-9 | are not required for the intended use of the device deleted/disabled? | | removed |
| 371112 3 | Are all applications (COTS applications as well as OS- | Yes | |
| | included applications, e.g., MS Internet Explorer, | | |
| SAHD-10 | etc.) which are not required for the intended use of the device deleted/disabled? | | |
| 0.11.12 | Can the device prohibit boot from uncontrolled or | Yes | _ |
| | removable media (i.e., a source other than an | | |
| SAHD-11 | internal drive or memory component)? | | |
| _ | Can unauthorized software or hardware be installed | No | _ |
| CALID 13 | on the device without the use of physical tools? | | |
| SAHD-12 | Does the product documentation include | No | |
| | information on operational network security | | |
| SAHD-13 | scanning by users? | No | |
| SAHD-14 | Can the device be hardened beyond the default provided state? | No | _ |
| · | Are instructions available from vendor for increased | NA | |
| SAHD-14.1 | hardening? | Voc | |
| SHAD-15 | Can the system prevent access to BIOS or other bootloaders during boot? | Yes | |
| | Have additional hardening methods not included in | Yes | _ |
| CALID 10 | 2.3.19 been used to harden the device? | | |
| SAHD-16 | | | |

| | SECURITY GUIDANCE (SGUD) | | NOTES |
|----------|---|-----|-------|
| | Availability of security guidance for operator and administrator of the device and manufacturer sales and service. | | |
| SGUD-1 | Does the device include security documentation for the owner/operator? | Yes | _ |
| SGUD-2 | Does the device have the capability, and provide instructions, for the permanent deletion of data from the device or media? | Yes | |
| SGUD-3 | Are all access accounts documented? | Yes | _ |
| SGUD-3.1 | Can the owner/operator manage password control for all accounts? | Yes | _ |
| SGUD-4 | Does the product include documentation on recommended compensating controls for the device? | Yes | _ |

| | HEALTH DATA STORAGE CONFIDENTIALITY | | NOTES |
|----------|--|-----|---|
| | (STCF) | | |
| | The ability of the device to ensure unauthorized | | |
| | access does not compromise the integrity and | | |
| | confidentiality of personally identifiable information | | |
| | stored on the device or removable media. | | |
| STCF-1 | Can the device encrypt data at rest? | Yes | |
| | Is all data encrypted or otherwise protected? | Yes | The device uses AES-256 bit encryption to protect |
| STCF-1.1 | | | data at rest. |
| | Is the data encryption capability configured by | Yes | |
| STCF-1.2 | default? | | |
| | Are instructions available to the customer to | NA | Device is already configured |
| STCF-1.3 | configure encryption? | | |
| | Can the encryption keys be changed or configured? | No | _ |
| STCF-2 | | | |
| | Is the data stored in a database located on the | Yes | The device uses AES-256 bit encryption to protect |
| STCF-3 | device? | | data at rest. |
| | Is the data stored in a database external to the | Yes | The device can to connect to a wired or wireless |
| | device? | | network. The DICOM ports are configurable in |
| STCF-4 | | | Settings |

| | TRANSMISSION CONFIDENTIALITY (TXCF) | | NOTES |
|----------|---|-----|-------|
| | The ability of the device to ensure the confidentiality of transmitted personally identifiable information. | | |
| TXCF-1 | Can personally identifiable information be transmitted only via a point-to-point dedicated cable? | No | |
| TXCF-2 | Is personally identifiable information encrypted prior to transmission via a network or removable media? | Yes | |
| TXCF-2.1 | If data is not encrypted by default, can the customer configure encryption options? | Yes | _ |
| TXCF-3 | Is personally identifiable information transmission restricted to a fixed list of network destinations? | Yes | |
| TXCF-4 | Are connections limited to authenticated systems? | Yes | _ |
| TXCF-5 | Are secure transmission methods supported/implemented (DICOM, HL7, IEEE 11073)? | Yes | |

| TRANSMISSION INTEGRITY (TXIG) | NOTES |
|--|-------|
| The ability of the device to ensure the integrity of | |
| transmitted data. | |

| | Does the device support any mechanism (e.g., digital | Yes | Customers can order an optional FIPS 140-2 |
|--------|--|-----|--|
| | signatures) intended to ensure data is not modified | | validated WiFi module to ensure data |
| | during transmission? | | confidentiality between the system and |
| TXIG-1 | | | their access point. |
| | Does the device include multiple sub-components | No | |
| TXIG-2 | connected by external cables? | | |

| | REMOTE SERVICE (RMOT) | | NOTES |
|----------|---|----|--|
| | Remote service refers to all kinds of device maintenance activities performed by a service person via network or other remote connection. | | |
| RMOT-1 | Does the device permit remote service connections for device analysis or repair? | No | The device does not have any remote service capability. All servicing requires physical access to the device |
| RMOT-1.1 | Does the device allow the owner/operator to initiative remote service sessions for device analysis or repair? | NA | |
| RMOT-1.2 | Is there an indicator for an enabled and active remote session? | NA | _ |
| RMOT-1.3 | Can patient data be accessed or viewed from the device during the remote session? | NA | _ |
| RMOT-2 | Does the device permit or use remote service connections for predictive maintenance data? | NA | |
| RMOT-3 | Does the device have any other remotely accessible functionality (e.g. software updates, remote training)? | No | |

| OTHER SECURITY CONSIDERATIONS (OTHR) | |
|--------------------------------------|--|
| NONE | |
