

The standard in
DURABILITY
& **RELIABILITY**

SonoSite builds durability and reliability into every ultrasound system we make. Which is why in confidence, we offer an industry-leading 5-year warranty.

SonoSite portable ultrasound systems are built tough for harsh working conditions. Our systems and proprietary transducers withstand rigorous testing including a 3-foot drop and resist fluid contamination. In the unlikely event your system needs repair, we have an overnight loaner program to minimize costly downtime.*

SonoSite ultrasound systems set the standard with an industry-leading 5-year warranty. With more than 100,000 systems sold, our technology-driven warranty is based on a proven record of reliability and durability.

Visit www.sonosite.com/warrantyservice to contact a customer service representative.

The Standard in **DURABILITY & RELIABILITY**

Industry-leading 5-year Warranty

Our technology-driven warranty covers:

- Defects to the ultrasound system or SonoSite manufactured transducers caused by internal malfunctions
- Accidental drop of transducer, and/or failure to operate in accordance with specifications in the user guide
- Loan of systems the next day where delivery is available*
- Additional coverage for your patient care investment is available with a SonoProtect Service Agreement
