

Warranties

Standard Five-Year Warranty

The Standard Five-Year Warranty includes coverage for damage to the system and transducers as described below, and is limited to damage due to defective materials, workmanship and/or failure of the system to operate in accordance with specifications contained in the User Guide. Warranty service includes next-day delivery (where available) of loaner replacements on the systems and transducers.

Inclusions

S Series™ ultrasound tools

Transducers: P21x, C60x, HFL38x, L38x, L25x, C11x, ICTx

Exclusions apply. *Please see SonoSite's Terms and Conditions for details.*

Total Coverage Protection—Optional Upgrade from Standard Five-Year Warranty

Available to purchase in increments of one to five years.

In addition to the coverage for the Standard Five-Year Warranty, the Total Coverage Protection Upgrade Warranty covers damage to the system and transducers (with the exception of OEM equipment, and stands) due to theft (U.S. only), accidental droppage or accidental mishandling. SonoSite will provide customers with next-day loaner equipment where delivery is available. SonoSite will provide a maximum of two replacement units during the coverage period.

Standard One-Year Warranty

Accessories covered

Accessories that carry the SonoSite label are covered under the Standard One-Year Warranty.

Please call a SonoSite Warranty Specialist today to find out more about these options or to simply ask about the status of your warranty at 877-657-8050.
