screw (1)

USB cable (1)

Wireless adapter (1)
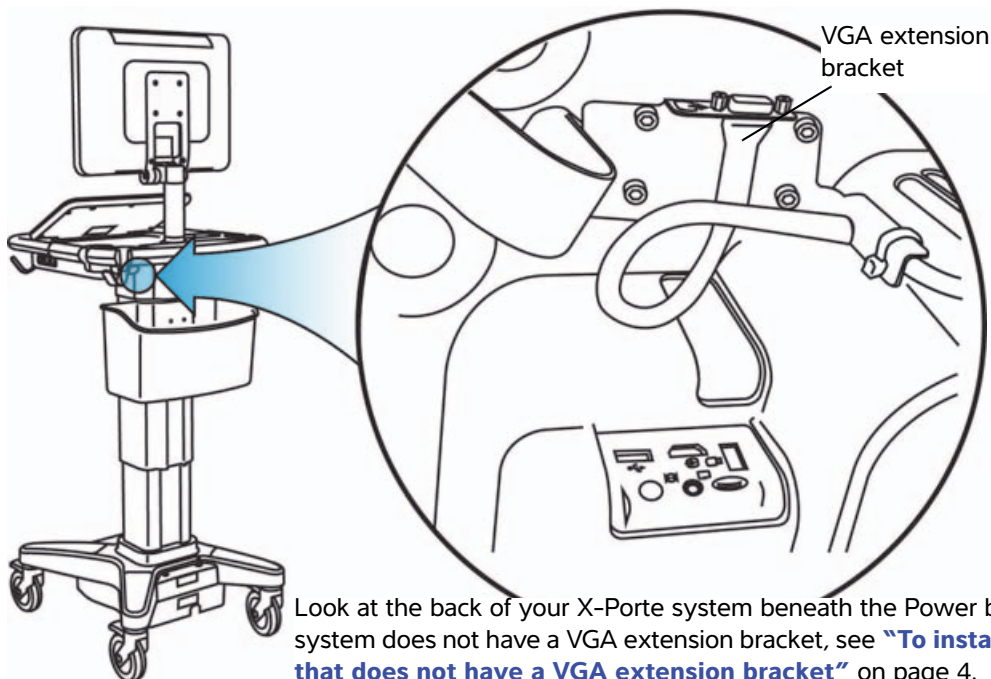

Hook & loop
adhesive strip set (1)

Allen
wrench (1)

This document provides instructions for inserting and attaching the wireless adapter assembly to the SonoSite X–Porte ultrasound system.

After installation, your wireless adapter may need to be activated. To activate your wireless adapter, please contact FUJIFILM SonoSite Technical Support. For contact information, see **"Technical support and customer comments"** on page 6.

For general information about configuring wireless network access, see the *SonoSite X–Porte User Guide*.
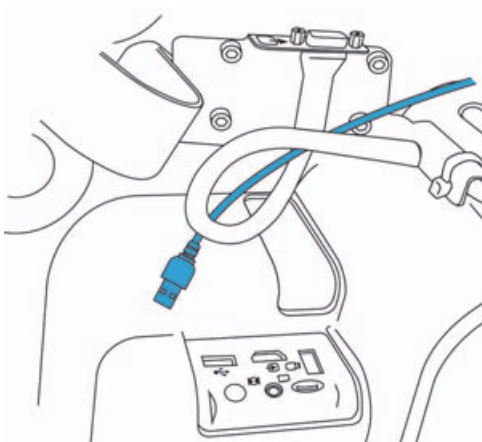

Connecting the wireless adapter to the SonoSite X–Porte system

To install on a system that has a VGA extension bracket

VGA extension bracket

Look at the back of your X–Porte system beneath the Power button. If your system does not have a VGA extension bracket, see **"To install on a system that does not have a VGA extension bracket"** on page 4.
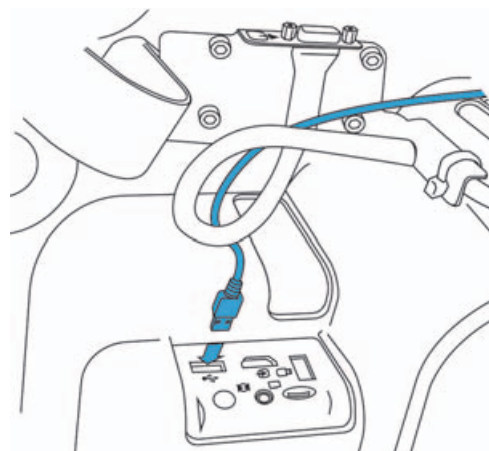

STEP 1

Route the USB cable above the video output cable.

STEP 2

Insert the USB cable into a USB port on the back of the system.
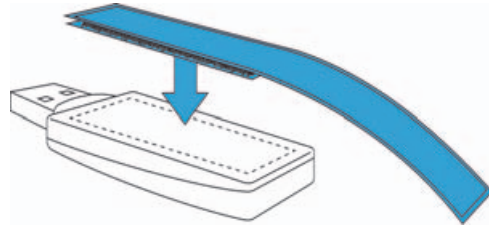

STEP 3

Remove the adhesive backing from the short side of the hook and loop strip set.

STEP 4

Attach the hook and loop strip to the wireless adapter.

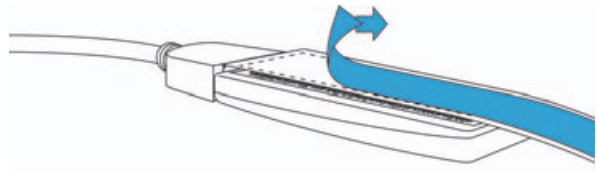

STEP 5

Plug the wireless adapter into the USB cable.

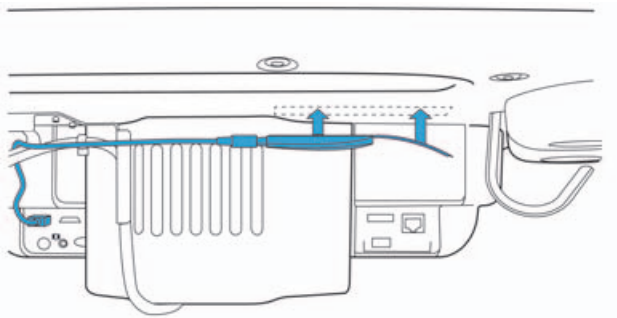

STEP 6

Remove the adhesive backing from the hook and loop strip.

STEP 7

Attach the wireless adapter to the underside of the SonoSite X-Porte system. Press and hold the adapter in place for at least 10 seconds to ensure a strong bond.

To install on a system that does not have a VGA extension bracket

Perform this procedure on the back of the SonoSite X–Porte system beneath the Power button. If your system includes a VGA extension bracket in this area, see **"To install on a system that has a VGA extension bracket"** on page 2.
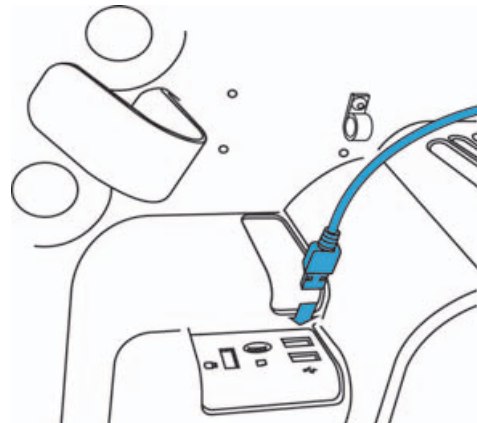

STEP 1

Fasten the cable retainer to the underside of the system using the Phillips-head screw.
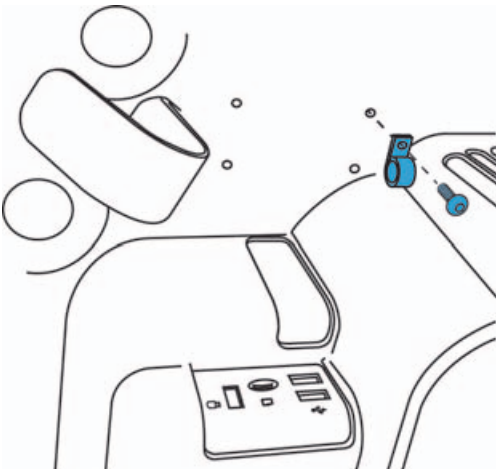

STEP 2

Insert the USB cable into a USB port on the back of the system.

STEP 3

Insert the cable into the cable retainer.

STEP 4

Remove the adhesive backing from one side of the hook and loop strip.

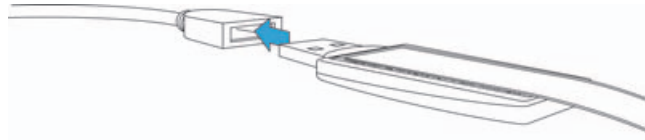

STEP 5

Attach the hook and loop strip to the wireless adapter.

STEP 6

Plug the wireless adapter into the USB cable.

STEP 7

Remove the adhesive backing from the hook and loop strip.

STEP 8

Attach the wireless adapter to the underside of the SonoSite X–Porte system. Press and hold the adapter in place for at least 10 seconds to ensure a strong bond.

To install on a system in desktop mode

On the right side of the system, plug the wireless adapter into the rear–most of the three USB ports.

Technical support and customer comments

After installation, your wireless adapter may need to be activated. To activate your wireless adapter, please contact FUJIFILM SonoSite Technical Support.
